

Board Working Session April 2nd, 2019 | 6PM - 9PM

Session Purpose and Objectives:

To review work to date before it goes out to the final community installation, which will be the final opportunity for the community to provide feedback on the District's newly articulate vision. This is an opportunity to:

- Make language more accessible for all community members;
- Clarify any areas of work that need more explanation;
- Champion any relevant ideas from earlier phases of the work, e.g. a community meeting, that have not made it through to this version, for final feedback
