

## Adi's Act/SB 52

The [Oregon Alliance to Prevent Suicide](#) is working with the Oregon Health Authority and the Oregon Department of Education on tools and resources to help support the implementation of [Adi's Act, Senate Bill 52](#). This bill requires school districts to adopt Student Suicide Prevention, Intervention, and Postvention plans with a focus on historically underserved youth including LGBTQIA+ youth and youth of color. The Act is named for a PPS student who was artistic, creative, identified as transgender and died by suicide, Adi Staub.

## PPS Plan

In PPS we have approached this by documenting the suicide prevention, intervention, and postvention work already in place- our goal is to build on the work.

## PPS Inventory (completed)

In the fall of 2019 SS&H surveyed all counselor/psych/social worker staff and are now working on responsive ways to collect parent/guardian and student feedback.

## PPS Student/Family Feedback (in process)

PPS Substance Use Prevention Advisory x

PPS Student Leadership Group

PPS Health Advisory Committee

Families with lived experience
