## OFFICE OF General Counsel

501 North Dixon Street / Portland, OR 97227

Telephone: (503) 916-3274

**Date:** March 31, 2022

**To:** School Board

**From:** Mary Kane, Senior Legal Counsel

**Subject:** Recommended for policy rescissions

---

The Board Policy Committee met on March 9, 2022 and March 30, 2022, to continue its review of policies to determine which needed updates and which should be rescinded. A number of policies were put forward by staff with recommendations that they be rescinded. After discussion, the Policy Committee recommended that the following policies be forwarded to the full Board with a recommendation for First Reading en route to rescission:

a. **5.60.020-P Term of Administrative Contracts**

This policy was adopted in 1971 and amended in 1995. The material is covered in Oregon Revised Statutes and does not constitute a policy.

b. **5.60.070-P Administrative Salaries**

This policy was adopted in 1971 and last amended in 1979. The information is already in place in the District's salary schedules.

c. **8.50.100-P Public Contracting and Purchasing Rules**

This policy was adopted in 1997 and amended in 2002. The policy is redundant of 8.50.090-P Public Contracting Rules, Payment of Claims, and Personal Liability, which was amended in 2010.

d. **5.50.070-P Expense Reimbursement**

This policy was last updated in 1980. This is not needed as a policy as this practice is outlined elsewhere.

e. **6.30.020-P Special Education Students and CIM Assessment Results**

This policy was last updated in 2002 and followed a practice no longer supported by the State Department of Education.

f. **8.80.010-P High Performance Facility Design**

This policy was last updated in 2002 and is now superseded by our recently adopted Climate Policy.

g. **3.30.080-P Resource Conservation**

This policy was last updated in 2002 and is now superseded by our recently adopted Climate Policy.

## 3.30.080-P Resource Conservation

- (1) As a leader in the community, the district must take a key role in resource conservation and instilling a conservation ethic in today's youth. To accomplish this, the Board adopts the following resource conservation management strategies:
  - (a) Enhance awareness of resource conservation methods;
  - (b) Encourage the efficient use of electricity, natural gas, gasoline, water, full utilization of materials prior to disposal, limited use of disposable materials, non-biodegradable products and promote recycling efforts;
  - (c) Institute best practices for resource management;
  - (d) Maintain energy usage and energy costs at the lowest level that is reasonably achievable and consistent with an efficient learning environment in schools.
- (2) The Director of Facilities and Assets Management shall promulgate a resource management plan consistent with the district's educational goals incorporating these strategies and taking into consideration:
  - (a) New resource conservation technologies and alternative energy sources;
  - (b) Resource conservation in all building retrofits as well as in new buildings or additions;
  - (c) Best practices in resource conservation technology for monitoring and operating district buildings.
- (3) The plan shall also include procedures for the Director of Facilities and Assets Management to administer the plan to maintain resource conservation, efficient buildings and provide training and recognition for students, custodians, teachers, principals and others as appropriate to ensure conservation accountability. The effectiveness of the district's resource conservation plan will be continually revised as needed to reflect conservation innovations and shall include recognition for student and staff special efforts toward the goal of resource conservation.

## 5.50.070-P Reimbursement Of Expenses

Any member of the professional staff shall be reimbursed for expenses, as established by Administrative Regulation, incurred while engaged in official district business outside the school district, when such activities have been duly authorized and payment of expenses has been approved by the office of the superintendent or designee.

## 5.60.020-P Term Of Administrative Contracts

- (1) **Fair Dismissal Positions — Permanent.** An administrator below the rank of assistant superintendent who occupies a position covered by the Oregon's Fair Dismissal Law shall upon the completion of three successful years of work in his/her position and election to a fourth year, achieve permanent status. Subsequent dismissal shall be according to provisions of ORS 342.865.
- (2) **Contract Administrators.** Administrators other than those described in Item 1 above shall receive contracts whose provisions shall be as recommended by the superintendent and approved by the Board.

History: Adpt. 6/71; Amd. 5/76; Amd. 9/95

## 6.30.020-P Special Education Students and CIM Assessment Results

### I. General

- (1) The award of a Certificate of Initial Mastery (CIM) is governed by Oregon law (ORS chapters 329 et seq). Under Oregon law, the Oregon State Board of Education (State Board) is directed to prescribe the standards and requirements that a student must meet to obtain a CIM. The State Board has developed tenth grade performance standards that students must demonstrate to obtain a CIM. In addition, the State Board has developed other performance standards at grades 3, 5 and 8 that must be met in order to meet the benchmarks at those grades. A CIM assessment system is used to determine whether a student has met those standards. The State Board has defined the CIM assessment system to include: (1) multiple choice tests, (2) on-demand performance tests, and (3) a collection of work samples. Students are provided multiple opportunities to earn a CIM up to the time of graduation from high school.
- (2) The Portland School District is obligated to comply with the State Board's mandates relating to the CIM standards and assessment procedures. The State Board has delegated discretionary authority to the district only with respect to the manner in which the district uses the CIM assessment results and the CIM itself.
- (3) In this policy the term "students with disabilities" refers to students who are eligible for services under the Individuals with Disabilities Education Act (IDEA) or under Section 504 of the Rehabilitation Act of 1973.

### II. Use of the CIM and Benchmarks Leading to a CIM, and CIM Assessment Results

- (1) No student with a disability, who otherwise satisfies criteria for receipt of educational benefits, should be denied an opportunity to receive any such benefits because of the student's disability. From the date this policy is adopted by the district's Board of Education until the State Board provides the district with legal mandates relating to the CIM assessment procedures, it is the policy of the district, with respect to students with disabilities, not to use the results or the absence thereof of those students' multiple choice and on-demand performance tests of the CIM assessment system as the determinant of whether or not the student:
  - (a) Shall repeat a year of school (see 4.20.010-P Student Promotion/Non Promotion);
  - (b) Shall attend summer school;
  - (c) May participate in an accelerated academic class or any other class (see 6.10.060-P Testing Programs);

## 6.30.020-P Special Education Students and CIM Assessment Results

- (d) May participate in an honors program (see 6.10.060-P Testing Programs); or
- (e) Shall receive a regular or modified diploma (see 4.20.040-P Graduation).

### III. Disclosure of CIM Assessment Results

- (1) Some parents of students with disabilities may prefer that their children's CIM assessment results not be reported to them. To accommodate this, the district will report CIM assessment results to parents in sealed envelopes addressed to parents and plainly identified as containing individual student CIM assessment results. Parents who prefer to discard the envelopes unopened may do so.

History: Adpt. 8/23/99; Renamed 7/15/02

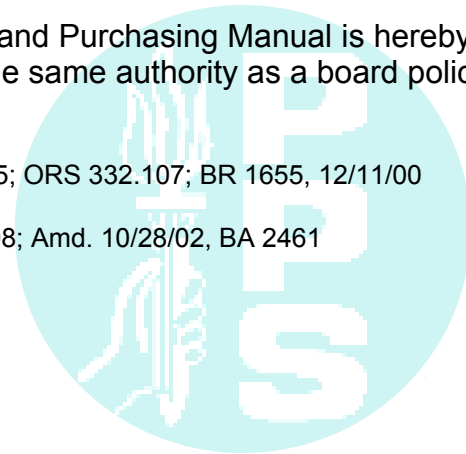

## 8.50.100-P Public Contracting and Purchasing Rules

The Portland Public School Board has designated itself as the local government contract review board pursuant to ORS 279.055(2).

- (1) The Board has the authority to:
  - (a) Adopt rules of procedure for public contracts and purchasing; and,
  - (b) Exempt certain public contracts or classes of contracts from the competitive bidding process otherwise required by the public contract rules.
- (2) The Superintendent shall develop a Contracting and Purchasing Manual containing the rules of procedure as adopted by the Board. The Manual shall be posted on the district website.
- (3) Revisions to the rules of procedure shall be approved by the Board by resolution.
- (4) The Contracting and Purchasing Manual is hereby adopted by reference and shall have the same authority as a board policy or administrative directive.

## 8.80.010-P High Performance Facility Design

The Board seeks to emphasize the need for continuing investment in the district's facility infrastructure to support future generations of Portland students. Future planning should focus on an investment in high performance school design to support academic achievement. The Board recognizes that continued high quality maintenance and reinvestment will be needed to ensure that the district's capital investment in its infrastructure is not diminished.

The district has preserved a huge investment in its buildings for decades for each taxpayer and to the benefit of all Portland. These efforts should continue with selective replacement or renovation of buildings that have reached the end of their life cycle, or whose utility for twenty-first-century educational programs is declining.

"High Performance Schools" are schools that have the following characteristics:

- (1) Provide a healthy and productive environment
  - (a) High levels of acoustic, thermal, and visual comfort
  - (b) Superior indoor environmental quality (air and natural daylight)
- (2) Cost-effective to operate
  - (a) Optimized energy performance and life-cycle cost approach
  - (b) Building commissioning
- (3) Conforms to sustainable design and operation
  - (a) Efficient use of resources (energy, water, materials)
  - (b) Environmentally responsive site activities

It is the policy of the Portland Public School Board that:

- (1) The district shall plan for and seek additional sources of funds to support the future need for ongoing preservation, high quality maintenance, renovation, or replacement of its exiting investment in its capital stock.
- (2) The district shall place a priority on the replacement of or renovation of schools to extend their life cycle and provide for the needs of a "high performance school" design when planning for the use of capital funds.
