INDIVIDUAL SCHOOL REPORTS

Portland Public Schools provides transparency around how resources are allocated to schools through the individual school reports. Starting in 2019-20 these reports have been provided as part of the Annual Budget documents. This release is an update to the 2019-20 reports with updated staffing information and 2018-19 assessment and graduation data that is now available. Quality information is a prerequisite for sound data-based decisions, this update has been released without the 2020-21 information so that decision-makers and the public have the information to better understand our individual schools during the current budget process. As of the publication of this document the District is facing unprecedented challenges and the economic impacts of the COVID-19 pandemic are not fully understood. A new economic forecast will be released on May 20, 2020 and the 2020-21 FTE and financial data will be included in an updated version of this document at a later time.

The following pages have a summary report comparing all schools and then a report for each individual school which summarizes numerous staff FTE, financial and student data points over the past three to five years and where available, the projected and budgeted data. The Sections outlined below are in order as they appear on each school's report.

Enrollment Data

The enrollment data reflects five years of actual enrollment at the school, as of October 1st of each year. Additionally, three years of projected enrollment are provided. The first year of the projected enrollment (2020-21) will be used for the budgeted year of school staffing FTE allocations.

If the school has a co-located program, the enrollment data is displayed separately for the neighborhood versus the co-located program.

School Staff

The school staffing data is broken into multiple sections to provide different insights. There are five years of actual Staff FTE listed and the budgeted year of Staff FTE will be added at a later time.

School allocated FTE by Position

These are the FTE that are allocated directly to the School, as part of school staffing, based on the projected enrollment and staffing thresholds for the year. See the School Staffing explanation in the Informational Section of the Budget Book for more information about the FTE allocated directly to schools.

Centrally allocated FTE by Position (CASR)

These are the FTE that are not allocated directly to the School, but are a central resource that are allocated by the central department. Special Education and ESL FTE are allocated based on students' needs at each school. See the School Staffing explanation in the Informational Section of the Budget Book for more information about the Special Education and ESL staffing.

Overall Students per FTE

The total enrollment is divided by the total FTE to show how many students are in the school per FTE each year. The school allocated and centrally allocated FTE are both used in the equation. A smaller ratio means there are more staffing resources per student.

School allocated FTE by Funding Source (not CASR)

This is a different view of the FTE allocated directly to the School, as it shows the funding source for the FTE. The funding sources available to each school varies, and this presents a more complete picture of how all of the FTE are funded at the school.

School Financial Data

The school financial data shows five years of actual financial data along with the current budget. The projected budget for the next fiscal year will be added at a later time.

Dollars per Student

The total dollars are divided by the total enrollment to show how many dollars per student are allocated to the school each year. The centrally allocated FTE are not included in the total dollars for this equation.

Demographic Data

The actual student demographic data are displayed for the past four years. The demographic data displayed are some of the data points that are factored into school staffing (Combined Underserved and Free-Direct Certification).

Combined Underserved is the percentage of students who are identified as at least one of the groups considered Historically Underserved (HU). Combined Historically Underserved students include:

- Special Education Eligibility
- Limited English Proficiency
- Free meal eligibility by Direct Certification (see below for definition)
- Identification as any the following races:
 - ▶ African-American
 - ▶ Latino
 - ▶ Native American
 - ▶ Pacific Islander
 - ▶ Multiracial, which includes any of the races listed above

Free-Direct Certification is a proxy measure to determine economic disadvantage. Direct Certification is based on income level or a categorical reason such as participation in the Supplemental Nutrition Assistance Program, Temporary Assistance for Needy Families, or Foster Care.

The races that are not considered to be Combined Underserved are also displayed to give a complete picture of the race/ethnicity make-up of the students at the school.

Student Performance Data

Three years of the student performance data are displayed for Math and English Language Arts. The participation rate is displayed along with the percentage of students scoring at each level for each test. The graph represents the percentage of students scoring a Level 3 or 4 on the assessments (above 0%) and the percentage scoring a Level 1 or 2 (below 0%). 0% represents the base level to be college or career ready.

Four Year Cohort Graduation Rate

Six years of the four year cohort graduation rates are listed for each of the high schools. This is the graduation rate for students who graduated from high school within four years of starting high school (on-time). The latest available data is displayed.

Schools in Need of Additional Supports

If a school is identified as a school in need of additional supports, there will be a note(s) in the upper right-hand corner indicating which group of additional supports the school falls under. The groups include Title I, CSI, and TSI, and reflect the most current data available.

Title IA is a Federal grant that is intended to support students in poverty. Elementary, middle and K-8 schools are identified as Title I where at least 33% of the students would qualify for free meals through Direct Certification. High schools only receive Title I funding if they are identified as "High Poverty" by a Direct Certification percentage of 46.8%, which is equivalent to 75% Free or Reduced Price Meals under the prior calculation method.

CSI and TSI are federally required designations under the Every Student Succeeds Act (ESSA), with CSI indicating Comprehensive School Improvement and TSI representing Targeted School Improvement. Targeted means the school has been identified for needing additional support for specific subgroups of students, whereas Comprehensive means all subgroups of students at the school have been identified as needing additional support.

Achievement, Students-per-FTE and Dollars-per-student, by School

Students per FTE
 School General Fund, Title-I,
 Foundation, Grants,
 including Special Education, ESL,
 Nutrition Services, etc.

Dollars per Student
 School General Fund, Title-I,
 Foundation, Grants,
 excluding Special Education, ESL,
 Nutrition Services, etc.
